Monday, September 16
“Uncommonly recognized mechanisms of common Strabismus: Diagnosis and treatment”
Joseph Demer, MD, PhD
Professor, Departments of Ophthalmology and Neurology
Director, Ocular Motility Laboratory
Jules Stein Eye Institute
University of California, Los Angeles
Host: Vallabh Das

October 4-6
2013 Optical Society Fall Vision Meeting
Host: University of Houston College of Optometry

Monday, October 7
“Temporal properties of cone and ipRGC contributions to the pupillary light reflex”
David Brainard, PhD
Professor, Department of Psychology
Director, Vision Research Center and The Institute for Research in Cognitive Science
University of Pennsylvania
Host: Heidi Hofer

Friday, November 8
“Visual perceptual learning and its brain mechanisms: A new perspective”
Cong Yu, PhD
Professor, Department of Psychology
Peking University
Hosts: Harold Bedell, Haluk Ogmen

Monday, January 27
“Can single-cone psychophysics be done?”
Lawrence Sincich, PhD
Assistant Professor, Department of Vision Sciences
School of Optometry
University of Alabama at Birmingham
Host: Scott Stevenson

Monday, February 24
“Proteoglycan 4 (PRG4, lubrican) as the natural ocular surface boundary lubricant”
Tannin Schmidt, PhD, PEng
Associate Professor, Department of Mechanical and Manufacturing Engineering
Centre for Bioengineering Research and Education
University of Calgary
Host: William Miller

Monday, March 3
“What can we teach damaged adult visual systems to see? Insights from recovered vision in cortical blindness”
Krystel Huxlin, PhD
Professor and Director of Research, Department of Ophthalmology
University of Rochester
Host: Jason Porter

Thursday, May 1
“Glaucoma: Optimizing early diagnosis and management”
Michael Kaloniatis, MSc Optom, PhD
Professor, Optometry and Vision Science
Director, Centre for Eye Health
The University of New South Wales
Host: Ronald Harwerth
